BRIEF HISTORY

PT. BINTANG TIARA CITRA is located in Bandung, West Java Indonesia. We are both producer and manufacture of speciality chemicals for various industry. We sustain our bussiness by primarily fulfilling the needs of our customers in term of quality and performance to their entire statifactions.

Our company was found in 2006, along with our developing effort to improve our product in industrial chemicals, we have also made an appreciable step producing speciality chemicals for oil drilling.

Ceaseless effort in conducting researches and developments for all of our production capacity to be successfully mingled with the ever increasing demands of professional circumstances. This has become obvious to us as we noticed the larger markets we have served as well as the more severe competition we won.

Our company Board of Director will always sincerely welcome any cooperation with you in creating a better futures for all.
